

Dear New Jersey Educator:

Thank you for registering to participate in the Panasonic Student Eco Citizenship Project! We are excited to work with you and your students in protecting the environment and being good global citizens!

You will find in this packet:

- A Teacher Guide
- Copy of the legal rules and the contest rubric
- 60 Student Workbooks (one per student)
- 30 Eco Picture Diaries (one per student team)
- 30 seed packets to plant with your students

The Teacher Guide will assist you in directing your students through the project and contest. Students will follow the workbook lessons throughout the duration of the project and each week they will document their team's outcomes in the Eco Picture Diary. Each team's Eco Diary can then be entered into the Student Eco Picture Diary Contest. All entries will need to be mailed to the Foundation for Impact on Literacy and Learning by April 27, 2018, 6:00P.M.EST. The mailing address can be found in the contest rules or on the webpage: <http://www.foundationforimpactliteracyandlearning.org/ecocitizen/>.

Winners will be announced on or around June 1, 2018. There will be 3 winning teams. Each team member (3- 4 students per team) and their teacher (1 teacher) will receive Panasonic prizes and treated to an awards lunch at Panasonic Headquarters in Newark, NJ in mid-June 2018.

Please feel free to contact us at any time if you have any questions during the project or contest, and thanks for your participation.

Sincerely,

A handwritten signature in blue ink that reads "Terri Seeney". The signature is written in a cursive, flowing style.

Terri Seeney
