

Panasonic Student Eco Citizenship Project

October 2018

Welcome Back!

We are excited to celebrate our 5th year and to engage with this year's participants!

Ready to get Started?

We know you are excited to kick off this year's Panasonic Eco Citizenship Project. Good news! Materials are ready, and you can expect to receive your welcome package with Student Workbooks, Teacher Guides and so much more the first week of November. Remind your building to keep a look out for your resources.

We Want to Hear From You!

This year we would like to feature a participant in each of our newsletters. Submit to us one photo of you and a few sentences on how you plan on implementing the project in your classroom. Send your photos and description to fillprograms@outlook.com

New this Year

As always, we work each year to refine and improve the program based on the feedback you give us. This year, we have put some changes in place that will ensure a great experience for you and your students.

- The hard copy submission for Eco Picture Diaries will be available, and we are excited to also offer a digital option for submitting this year. (Details to be shared soon.)
- The lesson plans have been updated to correspond with the four steps of the project process.
- Each teacher will select the top three entries from their student teams for submission.
- Each student team will submit a photo of their team in action along with the Eco Picture Diaries.
- Teachers will be able to submit a video of their student teams in action to be shared on the Panasonic Student Eco Citizenship Project YouTube page. You will be able to share the great work your students are doing with principals, parents and other stakeholders!

Thank You for Registering
